

LIFELIKE DENTURES HIPAA PATIENT AUTHORIZATION

HIPAA is the Health Insurance Portability and Accountability Act. It was passed in 1996 and went into effect on April 14th, 2003. What this law requires is that we tell you who we share your dental information with, which would be anyone involved in treatment and anyone involved in payment. This includes insurance carriers, any laboratories, specialists, collection agencies, and family or friends you authorize us to share with.

I have seen and understand the Privacy Practices.
